

António Marques

Psychosocial Rehabilitation

Graduated in Occupational Therapy, M.Sc. and Ph.D. in Psychology, António Marques held several HEI managing positions in the last eight years, including Vice President of the Polytechnic Institute of Porto, President of the Scientific Council and Ethical Commission, and Vice President of the School of Health (ESS-P.PORTO). Currently he's Head of Occupational Therapy Scientific Department and Co-coordinator of the Porto Interactive Neuroscience Group of the Psychiatric Rehabilitation Research Group of the São João Hospital, and of Porto Metropolitan Area Network of Psychosocial Rehabilitation Institutions. He's also a member of the directive board of P.PORTO Virtual and Augmented Reality Competencies Center and of the Center for Rehabilitation Research (CIR) being a coordinator of the Psychosocial Rehabilitation in the last one. His main research areas are psychosocial rehabilitation, social innovation, and virtual and augmented reality, being responsible for several postgraduate courses, I&D projects, master and Ph.D. theses in these fields.
