

## Christine Cunha

*Human Movement System Re(habilitation)*

Graduated in Physiotherapy by the School of Health (ESS-P. Porto) in 2005, with an M.Sc. in Physiotherapy and two specializations in Neurology and Physiotherapy in 2011 and 2018, respectively, Christine Cunha is currently attending her Ph.D. in Physiotherapy at Faculty of Sport (FADEUP). With

clinical practice in neurological rehabilitation, since 2005, and advanced training in adults with neurological conditions, she's also an Assistant Professor in the Physiotherapy Scientific Technical Area at Escola Superior de Saúde do Vale do Sousa (IPSN-VS) and ESS P. Porto where is collaborating with the Center for Rehabilitation Research (CIR) in the Human Movement System (Re)habilitation Area. Her main areas of interest are the role of postural control in movement organization and the role of the fascial system in motor control and pain.
